WE BELIEVE IN A COMPLETE ECO BRAND. AND,
THAT BEGINS WITH OUR ECO-FRIENDLY PACKAGING.
Even our packaging is sustainable. Our biodegradable labels are made using plant-based, non-toxic ink, natural, non-toxic glue, and are printed on FSC certified, forest-friendly eco-paper. The manufacturing process is entirely wind-powered, and our containers are made of BPA-free plastic.

The certified organic botanicals in our gentle shampoos and conditioners are sure to keep your pets' coats soft, smooth and shiny. We love them so much that we actually use them ourselves!

Oatmeal Almond Shampoo

Itchy, irritated skin gets soothing relief with an organic oatmeal bath. This rich shampoo keeps your pet's skin and coat luxuriant and healthy, while naturally-moisturizing almond oil provides an infusion of essential oleic and linoleic fatty acids. Add to these ingredients our rich blend of organic herbal oils and extracts, and you'll have a soothing scrub that's gentle enough to use every day!

Unscented Kitty Shampoo

Strong smells will offend your cat's sensitive nose, but an unwashed cat will offend everyone else's! The solution: a gentle, unscented shampoo that contains no added fragrances, but incorporates essential herbs for a natural, subtle hint of lavender, chamomile, rosehips and rosemary. Used regularly, this natural cleanser will leave your cat's coat vibrant, smooth and shiny.
